

School-aged Immunisation Service (SAIS)

   @kchftimmsteam

October 2023

Dear parent / carer

Your child is invited to have a flu vaccination this winter.

Flu can be an unpleasant illness and can cause serious complications. Having the flu vaccine protects your child and your family and friends, by preventing the spread of flu. It's recommended to have the vaccine every year as the type of flu can vary each winter. The vaccination is a quick and painless spray up the nose. There is no charge for the vaccine.

The School-aged Immunisation Service will be visiting your child's school on **5 December 2023**.

Please discuss this immunisation with your child and complete the online form at <https://family.kentcht.nhs.uk/> before midnight on **29 November 2023 to tell us if your child is getting the vaccine or not.**

Please submit either a YES consent or a NO consent as we will continue to invite your child to be vaccinated unless we hear from you. This may mean that one of our team calls you to obtain verbal consent over the phone.

If we are unable to vaccinate your child at school you will receive an email with a link to our online clinic booking site where you can book an immunisation appointment.

How can we help you?

We can provide communication support or information in different formats. Please tell us if you need:

- an interpreter, a British Sign Language (BSL) interpreter, or information in another language
- information in large print, Braille, Easy Read (using pictures) or audio.

If you would like to find out what happens to personal information held about you, please read the [your personal information](#) section on our Legal page. You can also read our [privacy policy](#) for more information.

Kind regards

School-aged Immunisation Service
Kent Community Health NHS Foundation Trust

Want more information?

Text chat us now: [07401320923](tel:07401320923)

Live chat via our website: family.kentcht.nhs.uk/imms

Email: kchft.cyp-immunisationteam@nhs.net

Telephone: [0300 123 5205](tel:03001235205)

Please note:

- If your child becomes wheezy, has a bad attack of asthma, or has started oral steroids for their asthma after you submit the consent form, please contact us on 0300 123 5205.
- The nasal flu vaccine contains pork gelatine. An alternative **injectable** vaccine is available for those who may not accept the use of pork gelatine in medical products. The consent form has an option to select the injectable flu vaccine instead of the nasal spray.
- If your child is in an at-risk health group they may also receive an invite letter from the GP. If your child is vaccinated by the GP please inform us as soon as possible.
- The online form expires at the end of each academic year so you will be invited to consent or decline for the yearly vaccination again next year.
